

Our company performs the service of preparing kitchen and bath cabinets for Installation of New Countertops.  
Explanation of the service we provide:

- Disconnect faucet water supply lines
- Remove stove and refrigerator as required for new counter installation
- Remove and dispose of faucet, sink, and counter tops (granite additional charge)
- Smooth cabinet tops; remove glue, screws, nails, etc.
- Disconnect waste lines, remove garbage disposal

Cost for this service is \$300.00

Return after new counter tops and sink have been installed by others and:

- Install client supplied faucet set, connect water lines
- Install client supplied garbage disposal if used (original or new one)
- Install client supplied drain/strainer set
- Connect drain piping
- Reinstall stove, refrigerator.

Cost for this service is \$300.00

Cost of similar service for bathroom:

\$400.00 (Single sink)

\$450.00 (Double sink)

If work is done with kitchen

\$250.00 (Single sink)

\$300.00 (Double sink)

What you should do before we get there:

- Clear all counter tops
- Clear cabinets below sink
- Clear top shelves of lower corner cabinets
- Optional: remove drawers from lower cabinets

Additional Services/charges:

- Removal and reconnection of secondary sink within kitchen: add \$60.00
- Installation/replacement of water supply valves: \$40.00 per valve, including parts and labor
- Reinstallation of cooktop or built-in range with down draft venting: add \$50.00
- Removal of wall tile, make walls ready for new tile installation: price determined after visual inspection
- Removal of granite/solid surface counter tops: add \$100.00

Work we do NOT perform:

- Water line connections to refrigerators or RO systems
- Relocating water supply and waste piping within walls
- Running electric wiring
- Replacing water valves in condos
